**SAEINDIA with SAEINDIA Foundation & SAE International in association with**

**Maruti Suzuki India Limited, Mahindra & Mahindra Ltd., Lumax DK Jain Group, Dassault Systemes, Lear Corporation Limited, NK Minda Group, The Automotive Research Association of India (ARAI), Eaton India Engineering Centre, John Deere India Pvt. Ltd., BPCL, Trim INDIA Limited** organized the event to help motivate & channelized the young talents.

The challenge was to design an appealing toy that performs in a specific way, such as Distance travelled, Weight carrying capacity, longest travel time, Accuracy & Speed. Students experimented with different designs and nozzle sizes to determine their effect on the Jet Toy's performance. Jet propulsion, friction, and air resistance are the core scientific concepts, which students explore in this challenge.

**Top 26 competent teams from 13 cities** all across India participated in the National Olympics 2011. **More than 100 students** showed their zeal and enthusiasm along with their creative & scientific excellence during the event.

## 4<sup>th</sup> SAEINDIA AWIM Jet Toy NATIONAL OLYMPICS

13th November 2011, New Delhi

The fabricated Jet toys were tested in five different track rounds namely, max. speed, max. distance, max. time, accuracy & max. distance with weight.

At the National Olympics 2011, students gave a demo of their concept car with the Team Name, Toy name, logo & slogan of their team and wrote the specification of their vehicles in a presentation Chart. Jury's had a tough time rating the teams as the participants were at par & there was just a fine line separating the next best. The aesthetics round was one of the most difficult round to be judged, since each futuristic car designed by the students was amazing & innovative.
